OBJECTIVE

To expand my personal and technical skills in an encouraging environment.

RELATED EXPERIENCE

TradeRev Software, Full Stack Software Developer, May 2015 - August 2016

- Android tech stack including: Java, Butterknife
- iOS tech stack including: Objective C, Swift
- Web tech stack including: HTML/CSS/JS/Angular
- Backend tech stack including: Groovy, Grails
- Worked with a small team in an agile environment

BrainStation, Tech Instructor, Summer 2015 - Present

- Instructed Intro to Web seminars as part of a BrainStation education initiative
- Over 200 participants attended 2 hour lectures to learn the basics of developing on the web
- Instructed Intermediate JavaScript seminar; the seminar focused on the basics of employing AngularJS

Independant Android Development, Summer 2014 - Present

- Participated in the development of a ChromeCast gaming app
- A TV acted as a shared screen while users' phones could be used as controllers
- Player-specific information could appear on the users' phones while shared data would be displayed on the TV screen, the goal being to create a platform for hidden information games (Ala Werewolf, Resistance)
